1 Introduction

Disclosures under Pillar 3 of the Basel standards have been prepared in accordance with the provisions of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investments firms, including all amendments (CRR), and Commission Implementing Regulation (EU) No 2021/637 laying down implementing technical standards with regard to public disclosures by institutions of the information referred to in Titles II and III of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council (hereinafter: Commission Implementing Regulation 2021/637).

SID Bank has the status of other systemically important institution (O-SII), which means that it is treated as a large institution in accordance with Article 4(146)(b) of the CRR. SID Bank has issued bonds that have been admitted for trading on a regulated market. Accordingly, the Bank is bound to the frequency and scope of disclosures set out in Article 433(a) of the CRR.

The disclosures are drawn up for SID Bank on an individual basis, as the Bank is not required to meet its prudential requirements under the CRR on a consolidated basis.

The Bank discloses the required data and information in the templates prescribed by Commission Implementing Regulation 2021/637. In accordance with Article 432 of the CRR, the Bank does not disclose certain rows or columns in individual templates that are not relevant to SID Bank. The Bank did not omit any information regarded as proprietary or confidential. The quantitative disclosures in specific templates are in line with the information in the reports submitted to the supervisory authority.

All amounts in the disclosures are in EUR thousand. The data as at 31 March 2024 are not audited.

Disclosures for previous periods are published on SID Bank's website (www.sid.si).

2 Disclosure of key metrics and overview of risk-weighted exposure

EU-16a	Cash outflows – total weighted value	40,312	46,002	27,991	25,274	33,463
EU-16b	Cash inflows – total weighted value	11,866	8,361	18,021	8,612	33,262
16	Total net cash outflows (adjusted value)	28,446	37,641	9,970	16,662	8,366
17	LCR (%)	1,436%	1,069%	5,298%	2,681%	6,874%
	Net stable funding ratio (NSFR)					
18	Total available stable funding	2,535,430	2,508,578	2,463,359	2,457,004	2,490,135
19	Total required stable funding	1,613,771	1,652,443	1,555,386	1,581,984	1,587,275
20	NSFR (%)	157.11%	151.81%	158.38%	155.31%	156.88%

The Bank's total capital ratio was 28.65% as at 31 March 2024 (31 December 2023: 27.33%). The higher ratio, comparing to the year-end 2023, is mostly due to an increase in the stock of the Bank's equity due to higher value of debt securities measured at fair value through other comprehensive income and due to recognition of the part of already distributed previous year's profit in available own funds.

Beside overall capital requirement (OCR) ratio, which is 13.49%, the Bank must fulfil the capital requirement from Pillar 2 guidance (P2G) which is set by the supervisory authority through the regular annual supervisory review and evaluation process (SREP) and for year 2024 amounts 1.75% (in year 2023 the requirement was 1.50%). The overall capital requirement stood at 15.24% as at 31 March 2024 and still remains well below Bank's total capital ratio.

The leverage ratio stood at 16.77% as at 31 March 2024 (31 December 2023: 16.28%), and is well above the regulatory requirement of 3%. The higher ratio, comparing to the year-end 2023, is mostly due to an increase of the Bank's available own funds.

The liquidity coverage ratio (LCR) stood at 1,436% as at 31 March 2024 (31 December 2023: 1,069%). This ratio is quite volatile over time due to the Bank's specific role as a development institution (explanation in chapter 3.2).

The net stable funding ratio (NSFR) stood at 157.11% as at 31 March 2024 (31 December 2023: 151.81%).

3.2 Table EU LIQB on qualitative information on LCR, which complements template EU LIQ1

(Article 451a(2) of the CRR)

	Qualitative information	
(a)	Explanations on the main drivers of LCR results and the evolution of the contribution of inputs to the LCR's calculation over time.	The Bank maintains a high liquidity coverage ratio (LCR), which is quite volatile over time due to the Bank's specific role as a development institution and its readiness to intervene as required, and the fact that SID Bank does not accept deposits from the public but rather acquires long-term funding in the main supported by a Slovenian government guarantee. The Bank obtains funding primarily on international financial markets and at related financial institutions. Consequently the Bank does not have major outflows over the period of 30 days taken into account in the calculation of the ratio, except for maturing long-term funding.
(b)	Explanations on the changes in the LCR over time.	
(c)	Explanations on the actual concentration of funding sources.	
(d)	High-level description of the composition of the institution's liquidity buffer.	The liquidity buffer consists of extremely high-quality liquid assets and high-quality liquid assets.
(e)	Derivative exposures and potential collateral calls.	The Bank concludes swap transactions to manage interest rate risk. The Bank calculates exposure to counterparty credit risk in accordance with Article 282 of the CRR. The Bank holds collateral for its transactions in derivatives in the form of a cash deposit in domestic currency.
(f)	Currency mismatch in the LCR.	The amount of assets that make up the liquidity buffer and the amount of liquidity outflows only comprise items denominated in euros. The proportion of liquidity inflows accounted for by other currencies is negligible.
(g)	Other items in the LCR calculation that are not captured in the LCR disclosure template but that the institution considers relevant for its liquidity profile.	The Bank does not include any items not included in the table of LCR disclosures in the calculation of LCR.

4 List of templates for quarterly reporting from Commission Implementing Regulation 2021/637

Article and Annex in Regulation 2021/637	Article in CRR	Template	Reporting frequency	Chapter in disclosures
Annex I: Disclosure of key metrics and overview of risk-weighted exposure amounts				
1.1	article 447(a) to (g) and article 438(b)	EU KM1	Quarterly	2.1
1.2	article 438(d)	EU OV1	Quarterly	2.2
Annex XIII: Disclosure of liquidity requirements				
7(b)	article 451a(2)	EU LIQ1	Quarterly	3.1
7(b)	article 451a(2)	EU LIQB	Quarterly	3.2
Annex XXI: Disclosure of the use of the IRB approach to credit risk				
11(d)	article 438(h)	EU CR8	Quarterly	Not relevant – the bank does not use the IRB approach for credit risk
Annex XXV: Disclosure of exposures to counterparty credit risk				
13(g)	article 438(h)	EU CCR7	Quarterly	Not relevant – the bank does not use internal models for calculating CCR
Annex XXIX: Disclosure of the use of standardised approach and internal model for market risk				
15.2(d)	article 438(h)	EU MR2-B	Quarterly	Not relevant – the bank does not use internal models for calculating market risk

List of abbreviations and terms

CCR	Counterparty credit risk
CET1	Common Equity Tier 1 Capital
CRR	Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (with amendments)
CVA	Credit Valuation Adjustment
EU	European Union
HQLA	High-quality liquid assets
IRB	Internal Ratings Based Approach
LCR	Liquidity Coverage Ratio
NSFR	Net Stable Funding Ratio
OCR	Overall capital requirement
P2G	Pillar 2 guidance
SREP	Supervisory Review and Evaluation Process
