1 INTRODUCTION

The basis for disclosures under the third pillar of the Basel standards as at 31 March 2022 are the provisions of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investments firms, including all amendments (hereinafter: the CRR), and Commission Implementing Regulation (EU) No 2021/637 laying down implementing technical standards with regard to public disclosures by institutions of the information referred to in Titles II and III of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council (hereinafter: Regulation 2021/637).

SID Bank has the status of other systemically important institution (O-SII), which means that it is treated as a large institution in accordance with Article 4(146)(b) of the CRR. SID Bank has issued bonds that have been admitted for trading on a regulated market. Accordingly, SID Bank is bound to the frequency and scope of disclosures set out in Article 433(a) of the CRR.

The disclosures are drawn up for SID Bank on an individual basis, as the bank is not required to meet its prudential requirements on a consolidated basis.

The Bank discloses the required data and information in this section in the templates prescribed by Regulation (EU) No 2021/637. That regulation prescribes for each individual template which past comparative periods are disclosed. In accordance with Article 432 of the CRR, a specific template only displays the rows or columns that are relevant for SID Bank. SID Bank has put in place the appropriate internal policies, procedures and controls that ensure the data in the disclosures are correct. The Bank did not omit any information regarded as proprietary or confidential. The quantitative disclosures in specific templates are in line with the information in the reports sent to the regulator.

All amounts in disclosures are expressed in thousands of euros. The figures as at 31 March 2022 are not audited.

All disclosures for previous periods are published on SID Bank's website (www.sid.si).

3.2 Table EU LIQB on qualitative information on LCR, which complements template EU LIQ1

(Article 451a(2) of the CRR)

Row number	Qualitative information - Free format	
(a)	Explanations on the main drivers of LCR results and the evolution of the contribution of inputs to the LCR's calculation over time	The Bank maintains a high liquidity coverage ratio (LCR), which is quite volatile over time due to the Bank's specific role as a development institution and its readiness to intervene as required, and the fact that SID Bank does not accept deposits from the public but rather acquires primarily long-term funding supported by a Slovenian government guarantee. SID Bank obtains funding primarily on international financial markets and at related financial institutions. As a result, the Bank does not have a high stock of outflows in the period of 30 days, which are taken into account in the calculation of the ratio, except for the maturities of long-term funding. The liquidity buffer comprises extremely liquid assets and highly liquid assets.
(b)	Explanations on the changes in the LCR over time	
(c)	Explanations on the actual concentration of funding sources	
(d)	High-level description of the composition of the institution's liquidity buffer.	
(e)	Derivative exposures and potential collateral calls	The bank uses derivatives in the form of interest rate swaps due to interest risk management. The bank calculates CCR for these transactions using the original exposure method, as set out in Article 282 of the CRR.
(f)	Currency mismatch in the LCR	The amount of assets that make up the liquidity buffer and the amount of liquidity outflows only comprise items denominated in euros. The proportion of liquidity inflows accounted for by other currencies is negligible.
(g)	Other items in the LCR calculation that are not captured in the LCR disclosure template but that the institution considers relevant for its liquidity profile
